WHY THIS CASE? WHY NOW?

The states of Missouri and Louisiana and the individual plaintiffs in *Murthy v. Missouri* (formerly *Missouri v. Biden*) – as do plaintiffs in *Kennedy/CHD v. Biden* – allege that **the Biden administration unlawfully coerced and pressured social media companies to deplatform and shadowban users and censor truthful content regarding COVID, regulatory failures, vaccines, and other content with which the Biden administration disagrees.** The District Court (W.D.La.) ruled that the Biden administration had to stop many of its actions, even while the case was still being heard, but that ruling is stayed until the Supreme Court reaches its decision.

SCOTUS's ruling in this case will have **far-reaching implications** for the free speech rights guaranteed by the First Amendment that Americans have enjoyed since the Founding Fathers. Justices will hear oral arguments while freedom-loving advocates for free speech and no censorship gather outside to exercise our free speech rights. Let your voice be heard!

We welcome all Americans who value free speech to attend!
