Re: FDA FOIA Requests 2022-5587 and 2022-6498

Children's Health Defense v. FDA, Civil No. 23-cv-00220

Dear Ms. Evans:

This is in partial reply to Freedom of Information Act (FOIA) request number 2022-5587 in which you requested various records "connected with safety monitoring of COVID-19 vaccines through the VAERS database," including "[r]ecords of any Empirical Bayesian data mining conducted by FDA and/or CBER, and records of any sharing or discussion of results and signals with the CDC."

Request number 2022-5587 is one of the FOIA requests at issue in the complaint filed in *Children's Health Defense v. FDA*, Civil No. 23-cv-00220, now pending in the U.S. District Court for the District of Columbia.

On January 10, 2025, 153 pages of records were made publicly available on the FDA's website. These records are also responsive to FOIA request number 2022-5587. The records can be found at the following link: <https://www.fda.gov/media/184988/download>. Courtesy copies are also enclosed.

Please direct any questions regarding this response to Dimitar Georgiev-Rommel of the U.S. Department of Justice, at 202-815-8654 or dimitar.georgiev-rommel@usdoj.gov.

Sincerely,

Beth Brockner Ryan
