Hello Mr. Harper-

Thank you for the phone call earlier today. Here's a further narrowing of request #2022-00056:

For the period identified in the original request (October 1, 2020 - April 30, 2021), for the individuals identified in my email of November 3, 2022 (Tom Shimabukuro, Eric Weintraub, John Su, Melinda Wharton, and Rochelle Walensky), please provide all emails sent or received that contain the boolean search set forth below. As we discussed, an asterisk * indicates that the word provided is a root term. We request that the search include all variants of the root, without regard to capitalization.

SEARCH:

myocarditis within 25 words of (covid or report* or child* or adolescent* or young* or teen* or male or fatal* or death* or die* or serious or severe or hospital*)

Hopefully, this narrowing will reduce the volume sufficiently that it is manageable. Would you please let me know either way?

Thank you again, and have a good evening!

Risa
