

Discerning Researchers **Wanted**

Seeking accountability for the corruption, fraud, and abuse of the Covid Era?

Want to help those 'Fighting the Good Fight' and *have fun doing it*?

Here's *your* opportunity to do just that.

Referencing more than 1,000 scientific studies, governmental records, and credentialed testimonials, [The Covid Index](#) is a **revolutionary research tool** that counters or debunks most aspects of the fallacious Covid Narrative.

Built by a small team of independent volunteers, The Covid Index features a **robust search engine** to query this limitless **directory of evidence**.

[Children's Health Defense](#) recently adopted the Covid Index as a CHD initiative, and the team is now actively recruiting **motivated Contributors** to submit new Index Entries and **Key Excerpts** (i.e., the most significant *verbatim* highlights).

Consequently, as a valued Contributor, **you** will help determine the size and scope of this scalable website and, therefore, its **ultimate value** for public education, courtroom battles, and governmental hearings around the world.

To volunteer as a **Covid Index Contributor** today, send an email to [**info@covidindex.science**](mailto:info@covidindex.science).

We look forward to hearing from you!
