Brown University		Office of the President, Brown University, 1 Prospect Street, Box 1860, Providence, RI 02912			https://www.brown.edu/news/2021-04-06/fall-2021	Starting no later than the Fall 2021 semester , Brown will require COVID-19 vaccines for all students who will be on campus or engage in any level of in-person instruction, whether in the U.S. or abroad. In addition, we are also requiring all Brown students who are engaged in on-campus activities (education, jobs, research, or engaging in any in-person education or work with other Brown employees, students, or visitors) this summer to receive the final dose of their COVID-19 vaccine by July 1, 2021.	
California State Chico	RI	Office of the President, 400 W. First St. Chico, CA 95929-0150	Christina H. Paxson, Ph. D.	president@brown.edu	https://sacd.sdsu.edu/student-health-services/covid-19	On July 27, the California State University (CSU) system announced that the COVID-19 vaccine will be required for students, faculty, and staff, including auxiliary employees in order to access campus this fall. As outlined by the CSU, this requirement is not contingent on the full U.S. Food and Drug Administration (FDA) approval, and therefore removes some of the earlier uncertainty regarding the policy's effective date. This is an update to the CSU's April 22 announcement. Students and all non-represented faculty and staff, including auxiliary employees, must submit their completed vaccination documentation to HealtheConnect, the university secure online health portal, by the deadline of Monday Aug. 16. Please note: This is a different process than the self-attestation form, which most faculty and staff have already completed. The CSU COVID-19 vaccination requirement allows for students, faculty and staff to seek an exemption based on medical or religious grounds . Exemption requests for students and non-represented faculty and staff must be submitted before Aug. 16 . Students who receive an approved vaccination exemption will be required to have COVID-19 testing every seven days through Sept. 30 , at which point the university will re-evaluate transitioning to biweekly testing based on county conditions. Information on submitting an exemption request can be found online.	I could not find a letter from the President. But, this is from Campus Updates.

Cornell University*	NY	Office of the President, 300 Day Hall, Cornell University Ithaca, NY 14853			https://health.cornell.edu/services/covid-19-services/covid-19-vaccination	COVID-19 vaccination is required for students attending the Ithaca, Geneva, and Cornell Tech campuses for the fall 2021 semester. Students must upload their vaccine documentation to Daily Check, file a request for a medical or religious exemption, or schedule a vaccine appointment by August 16, 2021 to avoid penalties. *Consequences of inaction*: What happens if a student doesn't comply with the requirement by the August 16 deadline? Students who have not submitted vaccination information, scheduled an appointment for vaccination, or filed a request for an exemption will be subject to progressive enforcement measures: If you remain non-compliant as of August 16: A registration hold will be placed on your account on August 17, preventing you from adding and dropping courses until you come into compliance. Ithaca students will also be prevented from accessing the Cornell Store, libraries, fitness centers, and some other campus facilities. Some students may experience delays in receiving stipends. If you remain non-compliant as of September 9: Ithaca students will have access to Canvas (the campus gateway to academic materials and assignments) suspended on September 10 until you come into compliance. If you remain non-compliant as of September 25: You will be disenrolled from the university on September 26. You will not be allowed to re-enroll until you come into compliance. Please note that there is an administrative fee of \$350 to re-enroll. You can come into compliance in any one of three ways: promptly uploading your vaccination information through Cornell's Daily Check; providing evidence to Cornell Health that you have scheduled your first vaccine appointment; submitting a request for a medical or religious exemption. Two exemptions for COVID-19 vaccine may be pursued: a medical exemption and a religious exemption.

Harvey Mudd College		Office of the President Shanahan Center for Teaching and Learning 320 E. Foothill Blvd. Claremont, CA 91711				Students who wish to live on campus and in Arrow Vista in the fall must be fully vaccinated from COVID-19. Exceptions will be granted to those students who have proof of a medical condition that prevents them from safely getting vaccinated or who hold a sincerely held religious belief or practice that prevents them from getting vaccinated. All faculty and staff (including contract workers) who are employed at HMC and for whom the COVID-19 vaccine is approved/authorized by the FDA[1], must be vaccinated against COVID-19 and show proof of vaccination, unless an exemption from this policy has been granted as an accommodation or otherwise. Once the Food and Drug Administration (FDA) grants full approval to one of the vaccine candidates currently authorized for emergency use (Pfizer, Moderna, or Johnson & Johnson), we will likely remove the option for philosophical objections and require employees with this accommodation to get fully vaccinated[2]. The college will accommodate medical and religious exemptions , as with other vaccines, but the expectation will be that our community of learners will overwhelmingly consist of vaccinated individuals. The college still intends to require all students to be fully vaccinated for COVID-19 before returning to campus, pending full regulatory approval by the FDA. That approval may not come before the college's preferred July 30 deadline , but we ask students to get vaccinated and upload their results or their exemptions so the college will have time to determine under which guidelines we will operate for the fall semester based on the percentage of students who are vaccinated. Once the COVID-19 vaccines have been fully approved by the FDA, Wofford will add the COVID-19 vaccine to the list of required vaccinations. Students who choose to forego vaccination for COVID-19 must complete and submit a medical or religious exemption form. In addition, students who choose not to get vaccinated must read and sign the Waiver of Immunization Against COVID-19. Regardless of federal approval of the COVID-19 vaccine by the start of the fall semester, all unvaccinated students will be required to: Undergo weekly COVID-19 surveillance testing on campus (for as long as the testing is offered) or off campus at your own expense, Upload the results of the weekly test by 11 a.m. each Friday morning to the Wellness Center patient portal, Quarantine or isolate off campus at your own expense should you be identified as a close contact or contract COVID-19, Follow other community safety guidelines determined by the college, which will be communicated to students in August. Unvaccinated students who do not comply with these four requirements may be subject to sanctions. Sanctions may include health and safety education, social probation and, ultimately, suspension.

The University will allow for religious and medical exemptions to the policy for both students and employees, although vaccination may still be required for specific clinical and academic programs and activities. These exemptions only apply to the COVID-19 vaccines . Note that a new Maine law, effective September 1, 2021, eliminates exemptions for students for the vaccines against diphtheria, measles, mumps, rubella and tetanus, which will be required.

All RIT students, including undergraduates, graduate, non-degree program, as well as staff who are taking courses , must show proof of full COVID-19 vaccination prior to coming to the Henrietta campus for Fall 2021. It is expected that all students will make every effort to complete a COVID-19 vaccine series and provide proof of full vaccination by August 1, 2021 . Those individuals who are unable to receive the vaccine for specific medical, religious, or philosophical reasons can follow the exemption process through the Student Health Center. If New York State mandates the COVID-19 vaccine for students, philosophical exemptions will not be allowed and those individuals granted such exemptions will then be expected to obtain the vaccine if they do not qualify for a medical or religious exemption . Hallick, Ph.D.	president@pacificu.edu	https://www.pacificu.edu/about/media/pacific-will-require-covid-19-vaccination-students-employees		Pacific University will require COVID-19 vaccination for employees and students to return to campuses. This new policy will go into effect May 1, 2021 , and will apply to all students and employees in full- or part-time Pacific programs. The requirement does not apply to students in fully online programs or to employees whose work is completely remote. Current employees already on campus will be required to complete their vaccination series by Aug. 1, 2021. Medical and religious exemptions may be requested, consistent with Oregon and federal law.

Swallow, Ph.D.	jswallow@carthage.edu	https://www.carthage.edu/carthage-covid-19/vaccinations/	Carthage has decided to require vaccinations for all students, faculty, and staff. Each member of the Carthage community must be vaccinated by Wednesday, Sept. 15, or have an exemption form on file . The College recognizes that there are circumstances where individuals would choose not to be vaccinated for religious reasons, health conditions, or personal convictions . Those who wish to remain unvaccinated will need to fill out the vaccination status form indicating exemption and will need to continue to wear masks on campus, test on a regular basis through the College's testing service, and quarantine if identified in the contact tracing process . Vaccination status will determine masking and testing requirements for each individual, and the need for quarantine should a non-vaccinated individual be involved in contact tracing. Vaccinated individuals will not need to wear masks on campus, practice social distancing, or quarantine per new CDC guidelines. Unvaccinated individuals will be required to wear masks, practice social distancing, and be quarantined if they contract COVID-19 or were in close contact with someone who has contracted COVID-19.

Touro College & University System	and some other campus	Office of the President College & University System Touro College 320 W 31st St New York, NY 10001	Dr. Alan Kadish	alan.kadish@touro.edu	https://www.touro.edu/updates/coronavirus/	As of August 15, 2021 , Touro College will have a Vaccine Mandate for all medical and health-related programs. This mandate will apply to all those who attend on-campus didactic courses, as well as externship rotations at health and medical facilities. In addition, for any program that interacts via field placements and clerkships with members of the outside community (e.g., social work, law and graduate education), those enrolled in rotations that are public facing will share this mandate. There will be limited medical or religious exemptions granted. Exempted individuals will be required to mask, social distance, and get tested for COVID, as described below. Additionally, exempted students may be unable to participate in externship rotations, field placements, or clerkships, since these sites largely insist upon full vaccination. Consequently, Touro cannot guarantee you a site if you are unvaccinated, which may impact your ability to meet programmatic requirements and graduate on time.

Adams State University	CO	Office of the President Adams State University 208 Edgemont Boulevard, Suite 2180 Alamosa, CO 81101	Cheryl D. Lovell, Ph.D.	president@adams.edu	https://www.adams.edu/safe-return/return-to-campus/ https://www.adams.edu/news/covid-19-vaccine-requirement/	In response to Gov. Jared Polis' memo noting institutions of higher education are expected to require their campuses to be vaccinated against COVID-19, the Adams State Board of Trustees voted Friday to require the vaccine contingent upon the full approval by the FDA of at least one of the current emergency-use authorized vaccines. However, until there is full FDA approval for at least one of the vaccines, Adams State will continue to encourage and emphasize the importance for students and employees to get vaccinated ahead of the start of the fall semester in August. Adams State will also continue to emphasize masking and physical distancing as two of the most effective means of combating the spread of COVID-19 for non-vaccinated individuals. Exemptions allowed under State and Federal law will be fully available to all students, faculty, and staff once the requirement is in place. "Based on CDC guidance and in the interest of protecting the health and safety of the USJ community, a vaccine requirement has been implemented for Fall 2021 for student-athletes and for residential students. Any student who wishes to participate in USJ athletics and GNAC competitions, or any student who wishes to live in a residence hall will have to be fully vaccinated. Students should submit vaccine information by Aug. 15. Students who are fully vaccinated will receive a bracelet that must be worn on campus to indicate that the student does not need to wear a mask in most indoor locations. To obtain a bracelet, students must complete a form that can be found on MyUSJ under Student Health Services (SHS) and provide proof of vaccination, such as an image of their vaccine card. At this time, USJ does not intend to extend the vaccination requirement to other students, but unvaccinated students should be aware of the following: <ul style="list-style-type: none"> · They will be required to wear a mask when indoors on campus except when eating or drinking. · If they are identified as a close contact and must quarantine, or if they contract COVID and must isolate, they will not be able to attend classes in-person and classes will not be offered remotely. · Internship, clinical, student teaching, and field experience sites off-campus may require vaccination. For residential students, medical exemptions for vaccination may be granted in specific situations. For more information on medical exemptions for COVID-19 vaccination such as required forms, documentation, and how to submit medical exemption, please contact HealthServices@usj.edu. A student who is not fully vaccinated by the beginning of the fall semester may have to wait up to 6 weeks before completing the vaccination process and will not be allowed access to the site until then. Faculty, staff, and students confirmed as fully vaccinated will no longer have to complete the Daily Attestation form and Contact Tracing form when utilizing USJ Wi-Fi and will not be required to quarantine or be tested if asymptomatic post-exposure. University of Michigan (please see tab 'UniversitySystems')	MI	Office of the President University of Michigan 503 Thompson Street Ann Arbor, MI 48109-1340	Mark Schlissel, Ph.D.	presoff@umich.edu	https://record.umich.edu/articles/u-m-will-require-covid-19-vaccination-on-all-campuses/	All students, faculty and staff on all three campuses of the University of Michigan are required to be vaccinated against COVID-19 and must submit their vaccination information before the start of the fall term, university officials announced July 30. The vaccine requirement also applies to those working or learning remotely. While we will provide limited exemptions for medical and religious reasons, it is imperative that all members of our community are protected from this devastating virus. Submit proof of vaccination (full or partial) no later than Aug. 30. Apply for a medical or religious exemption. The exemption process for U-M campuses and Michigan Medicine is being developed and will be communicated by Aug. 4. Those individuals who request and are approved for a medical or religious exemption will be required to complete mandatory weekly COVID-19 testing and must continue to mask indoors while on campus.

A COVID-19 vaccination will also be required of all faculty and employees. Exceptions to this policy may be permitted under a formal waiver request but will be granted primarily where medical conditions are justified. However all resident students must be vaccinated without exception due to the unique nature of living in a group setting on campus. s. Medical and religious exemption requests will be considered, and if approved, will result in students being subject to special requirements such as increased COVID-19 testing, masking, physical distancing, grab and go meals in the dining hall.

We realize that the start of the semester is only a few weeks away and that time is short. Therefore, for those who receive a two-dose vaccination, we require only that they have at least their first dose by the time they arrive on campus. Details on how CIA will verify vaccination statuses and on how to formally request a medical or religious exemption are still to come. Those who receive an exemption will be required to submit to weekly COVID testing. Students, faculty and staff who do not comply with CIA's vaccine mandate will not be allowed on campus.

If you have already done so, that is sufficient. All prior exemptions that were granted will expire on August 9, 2021. If requesting a medical exemption, provide documentation from a physician as to the reason. If there is no scientific data supporting the reason, the exemption will be denied and proof of vaccination will be required before the start of classes on August 16 (AAS) or September 1 (AAS semesters, GBS, RNB). The new documentation must be provided, even if you have provided documentation earlier this year. If you are requesting a religious exemption, you must submit a letter from clergy or religious leader, on letterhead, with documentation that the religious organization at large has been unsupportive of the vaccine. The letter must also document your membership in the religious organization, and specifically state which religious belief you hold that prevents you from having the vaccine. Students/staff/faculty with an exemption are required to have weekly testing at the site of your choice. Results must be uploaded to Castlebranch account. Students/staff/faculty with an exemption must wear 2 masks, one of which is an N95 which the College will provide.</p> <p>Pending full FDA approval of any one or more COVID-19 vaccine(s), LIM College WILL REQUIRE PROOF OF THE COVID-19 vaccine for all community members who plan to study, learn, teach or work physically on campus in Fall 2021. For Fall 2021, unvaccinated community members are required to submit a negative COVID-19 baseline test prior to the start of the semester, administered on/after August 25th. Additionally, all unvaccinated community members will be required to make the necessary arrangements to find a testing site in order to obtain and submit additional negative test results at designated times throughout the semester. There are currently no plans to offer surveillance/pool testing on campus (individuals who have received an approved exemption will be required to follow this protocol). For Fall 2021, fully vaccinated community members will not need to submit a baseline test, nor participate in ongoing testing efforts. If you do NOT submit proof of vaccination by Sept. 3, in addition to the new baseline COVID-19 PCR test result mentioned above, you will also have to participate in ongoing testing throughout the semester until you are fully vaccinated. The College will allow those with a documented medical or religious reason to request an exemption.</p> <p>The College is requiring all students and employees to provide documentation that demonstrates they are fully vaccinated with an authorized COVID-19 vaccine by August 9, 2021. Students and employees requesting a medical or religious exemption to the vaccine policy must apply by July 12, 2021 to ensure all documentation is in place. The College no longer requires social distancing indoors or outdoors. Fully vaccinated students and employees are not required to wear masks indoors or outdoors. Approved unvaccinated students and employees must continue to wear masks indoors and follow a regular testing schedule.</p> <p>The college requires full COVID-19 vaccinations of all students, faculty, and staff by October 1. The college will accept approved exemptions based on medical or religious concerns.</p>

Central Maine Community College System (plz check UniversitySystems tab)	ME	Office of the President Maine Community College System 323 State Street Augusta, ME 04330	David Daigler, MS	N/A	https://www.mccs.me.edu/covid-19/vaccine-protocol/ https://www.mccs.me.edu/press_release/maines-community-colleges-requiring-covid-19-vaccination-for-all-student-this-fall/	Starting fall 2021, the Maine Community College System is requiring all students attending classes in person to be vaccinated against COVID-19. Any student or trainee accessing MCCS facilities, including off-site education centers and locations. Students who are fully remote and will not be entering campus buildings for any purpose will not need proof of vaccination. Approximately 45 percent of courses are being delivered remotely this fall. The protocol does apply to students studying at off-campus centers. It also applies to situations where the instructor and the students or trainees are all from MCCS, such as an MCCS night class offered at a high school. Students may request an exemption from the vaccination protocol. MCCS will grant exemptions for individuals who cannot be vaccinated for documented medical reasons. MCCS will not consider exemptions based on religious or philosophical beliefs, in line with Maine's post-secondary vaccination law taking effect September 1. Students with a documented disability or medical condition may request a medical exemption/accommodation from the vaccine requirement.
